Terms of Compliance

10. The Tile Drainage work shall be constructed as per the conditions outlined in the approved Drainage License from Manitoba Sustainable Development.
 - a. Unless specified, the applicant and/or landowner will control the spring water runoff and ensure the proposed tile drainage works do not increase the downstream water flow in spring runoff conditions.
 - b. The applicant and/or landowner will ensure that proper erosion control methods are followed.
11. Any tile drainage projects must be installed with a $\frac{1}{4}$ " 24 hours coefficient.
12. There is no obligation on the Municipality to improve the existing municipal drainage system to accommodate a tile drainage project.
13. The Municipality may authorize the applicant to perform private works in a municipal drain to accommodate a tile drainage project, however the Municipality would establish the elevation levels and the hiring of a contractor to perform the work, and the applicant would be responsible for all costs associated with the work. This may require the applicant to address a steep drop or loose soil conditions.
14. The applicant may be responsible for any future drain maintenance costs such as mowing, the removal of siltation and/or blocks in the drain.
15. If the applicant proposes to install any infrastructure under or through a municipal right-of-way the applicant must receive approval from the Municipality prior to the installation of the pipe, and the method of the installation will be by boring (directional drilling.) This will require the applicant to obtain approval from the Municipality.
16. The Municipality of Brenda-Waskada requires that all downstream landowners and any other landowners that may be affected by the tile drainage works be contacted concerning the permitted work.
17. This permit is subject to any restrictions and/or regulations imposed by any other Government body (i.e.: Manitoba Environment, DFO) and does not relieve the landowner and/or applicant from having to comply with the requirements.
18. The applicant will be required to enter into a development agreement with the Municipality if the tile drainage project is discharging water into a municipal drainage system.
